IMPACT BUSINESS MODELS

14.7

This IBM section is applicable if your company has qualified for a previous Customer IBM, and you can verify that your positive product/service impact directly benefits low income or traditionally underserved populations.

Increasing Accessibility for Underserved Groups

Does your company do any of the following to improve the access or impact of your product for the underserved populations that you serve?

- Company utilizes a cross-subsidization model whereby higher pricing for middle and high-income clients facilitates offering lower/subsidized pricing for low income clients/customers
- Product/service is accompanied by a zero-interest or below market- financing option (directly from company or through finance partner) with small repayment amounts to provide the poor access to purchase
- Product/service pricing model includes transparent pricing for all customers
- Vendor provides training on safe use and/or maintenance of the product/service
- Pricing can be verified to be equal or lower than market alternatives not targeted to underserved populations
- Product information is assessed and developed to match the literacy level and needs of end users

Product design has unique specifications from common alternatives to make it more specific for underserved groups (e.g. smaller volume packages to reduce upfront costs)

These product/service attributes do not apply to our company
